

# GLOBAL AMBASSADORS FOR PATIENT SAFETY

 If you can't do it here....

## Student Tales from Abroad:

*"On my global internship I worked in a dental clinic and pulled teeth"*

*"On my mission trip I took medical histories and gave vaccinations"*

*"On my study abroad trip, I worked in a poor, rural community and delivered babies"*

Do these types of stories sound familiar?

## You shouldn't do it there!

This free, online workshop offers tools and advice for how to get the most of your experience abroad, without stepping beyond your qualifications and expertise.

Be a part of a growing group of "Global Ambassadors for Patient Safety" with this workshop:
