

# *Oath of Global Ambassadors for Patient Safety*

This certificate confirms that I have completed the University of Minnesota Health Careers Center's "Global Ambassadors for Patient Safety" workshop. I agree with and am committed to upholding the important standards it introduced regarding my responsibilities for patient safety and privacy while participating in a healthcare experience abroad.

I am currently an unlicensed pre-professional, and just as it is unethical for me to practice direct patient care within the United States, it is equally so in any country I am visiting. Regardless of intent, by engaging in any unlicensed medical practices, I would be disregarding patient boundaries and safety, and would be placing that patient at considerable risk.

## *Juramento de Embajadores Globales para la Seguridad del Paciente*

*Este certificado confirma que he completado el taller, "Embajadores Globales para la Seguridad de los Pacientes" ofrecido por el Centro de Carreras Sanitarias de la Universidad de Minnesota. Acepto y me comprometo a seguir las normas importantes relacionadas a mis responsabilidades para asegurar la seguridad y privacidad de los pacientes mientras participo en un programa relativo a la sanidad en el extranjero.*

*En este momento soy un estudiante sin licenciatura para practicar una profesión sanitaria, y reconozco que no es ético y que no estoy preparado/a para ejercer una profesión con pacientes en los Estados Unidos, así como no puedo ejercer cuidado sanitario en un país extranjero. Independientemente de la intención, mi participación en cualquier práctica sanitaria sin licenciatura, sería faltar el respeto y la seguridad de los pacientes, y a la vez arriesgaría el bien de los pacientes.*
